George Brown
The City College

George Brown College is located in the heart of the City of Toronto. It offers all the advantages of city life including good public transportation, and access to entertainment and cultural activities. The College's wide range of programs and services reflects the diversity of the city itself.

Nearly 50,000 full- and part-time students register with George Brown College each year. About half come from Toronto. The other half are drawn from the rest of Ontario and overseas.

Facilities

After many years of moving in and out of temporary premises and the construction of new buildings, the College has now settled into four main campuses, all located in the Inner City.

Casa Loma Campus, at 160 Kendal Avenue, opened in the fall of 1973. It houses most of the construction technology programs and has been specially designed so students can study its construction. Allied Health Auxiliaries, Jewellery Arts, and Ceramics programs are also located at this campus.

St. James Campus is located on the north side of King Street between Jarvis and Sherbourne. The historical building dates back to 1874, when the first segment was built by Christie-Brown Bakery Company. When the College took it over in 1971, the building was completely gutted inside, and rebuilt to modern specifications. The attractive exterior has been completely restored. It now houses programs in Electronics, Business, Graphic Arts, Nursing and Dance.

Kensington Campus, at 21 Nassau Street is located in the heart of one of Toronto's most interesting ethnic areas. The famous Kensington outdoor market is just steps away. Kensington Campus has programs in Food and Fashion Technology and Community Services.

College Campus on the south side of College Street west of Bathurst, is a short walk from Kensington. It houses the Language Training Centre and the Industrial Training Division.

Nightingale Campus is located at 2 Murray Street, just west of University Avenue on Elm Street. All post-diploma Nursing and Community Services programs are conducted there.

In addition to these four main campuses the College has a Theatre Arts building at 530 King Street East, a Driver Training facility at Polson Pier.

Courses and Programs

Full-time The main purpose of all full-time programs at the College is to provide students with a combination of marketable skills, education and realistic expectations that will prepare them for a highly-competitive job market.

Advisory boards consisting of college staff, senior students or graduates, and representatives from business and industry meet at least twice a year. Their input helps keep programs relevant and allows the College to adapt its programs to changing needs

Full-time students at the College fall into three categories: those enrolled in two and three-year programs that require high-school graduation; those taking "short" programs of three weeks to one year, usually requiring Grade 10, and apprentices involved in trades training... men and women required to take a prescribed number of weeks classroom training each year as part of their apprenticeship.

While the College does not publish a traditional full-time calendar, details of full-time programs may be obtained from the Information Services Department by calling 967-1212 extension 591/2/3 or 4.

Many full-time students are drawn to the College by two- and three-year programs unique to George Brown College.

Provincially Unique Programs

- Acoustics Technician
- Addiction Counsellor
- Apparel Management
- Clinical Methods in Orthotics Prosthetics
- Commercial Ceramics
- Court Reporting
- Culinary Management
- Dance Training
- Dental Technician
- Denture Therapist
- Fitness Instructor
- Mechanical Engineering Technician (Building Services Drafting)
- Orthotic Prosthetic Techniques
- Physical Distribution
- Piano Technician
- Residential Construction Management
- Watchmaking
- Word Processing

Others come to the College to take programs in which six semesters' work is studied in two years. These programs would normally take three years to complete. But a 45-week academic year allows students to graduate one year earlier than usual.

"Three-in-two" Programs

- Electronic Technology
- Electrical Technology
- Instrumentation Technology
- Survey Technology

Information and application forms for two- and three-year programs are available at high school guidance offices, or directly from the College.

Exceptions to the usual grade 12 entrance requirement are sometimes made for mature students (over 19) who show ability to succeed. College preparatory programs are also available for adults who wish to upgrade their academic qualifications for admission to college programs.

Short Programs Application for Manpower, skill-training programs — three weeks to 52 weeks long — must be made through the applicant's local Canada Manpower office. Some programs have a limited number of "open seats" for fee-paying students, but availability varies from program to program.

Apprenticeship Application for apprenticeship is made through the Industrial Training Branch of the Ministry of Colleges and Universities, 558 Yonge Street, Toronto, Ontario M4Y 1Y9. Apprentice must have a sponsoring employer.

Part-time In addition to full-time programs, the College offers a variety of career-related and general-interest, part-time courses. All the part-time courses listed in this calendar are taught on College premises. Most are held in the evening, one or two nights a week.

There are three major start periods: fall, winter (after Christmas), and spring. A limited number of courses are also held during the summer.

Industrial Training Division The College also has an Industrial Training division which works with business and industry to develop customized employee training programs.

Employer-Sponsorad Training Employer Sponsored Training is the Ontario Government's response to the need for highly flexible training programs to meet the specific skilled labor shortages. Under the new training initiative, a Community Industrial Training Committee, representing both industry and labour, has been established for the City of Toronto to identify current and threatened local shortages of workers in highly skilled industrial trades. The Committee will also examine alternative training methods for meeting these shortages. George Brown College has responsibility for liaison between the Committee and the Ministry of Education. Training of individuals, when necessary, will be done primarily in an industrial or business setting

Conference/Seminar Unit The Conference/Seminar Unit provides up-to-date training workshops to managers, professionals and support staff from business, industry, education, health and government. Workshop leaders are recognized practitioners in their field and provide participants with valuable hands-on learning experiences. For more information on 1980/81 programs please call the Conference Centre office at 967-1212 ext. 700.

Services

Accommodation information is posted at the Administration Building, 500 MacPherson Avenue. There is no shortage of boarding and rooming facilities in Toronto. Rates vary from $38 to $40 per week for room and board. In addition, limited accommodation is available for female students at the Nightingale Residence, 2 Murray Street.

Counselling Services are available on each campus to provide educational, vocational and personal counselling.

Health Centres on each campus are staffed by Public Health Nurses. A physician is available for consultation on an appointment basis. Services include individual health counselling, health education programs and emergency care in the case of accident or illness.

Libraries for study and leisure reading, operate at Casa Loma and Kensington Campuses from 0800-1800 hrs., Monday to Thursday, 0800-1600 hrs., Fridays; at St. James from 0800-1900 hrs., Monday to Thursday, 0800-1700 hrs., Fridays; at Nightingale from 0800-1600 hrs., Monday to Friday. Library hours are shorter during the summer months.

Campus Placement Offices provide career planning and employment search information and maintain contact with potential employers on behalf of graduates. Permanent, part-time and summer employment opportunities are posted on bulletin boards at each Placement Office.

Parking and transportation There are limited parking facilities available at or nearby each of the campuses. Students are encouraged to use the Toronto Transit Commission system which serves each campus well. Reduced fares are not available to part-time students on either the TTC or GO Transit.

Athletic Activities are co-ordinated from the office at the Casa Loma Campus gymnasium. The emphasis is on intramural and recreational activity. A limited number of teams participate in the provincial inter-college league There are gymnasia at Kensington, St. James and Casa Loma Campuses.

Room Location Each campus has a slightly different room numbering system with the first character indicating either the building or the floor. Guidance should be sought from the Campus Admissions or Principal's Offices.

Financial Assistance. Applicants for admission to post-secondary programs who are Canadian citizens or landed immigrants, having resided in the country for at least 12 consecutive months prior to enrolment, may be eligible for financial assistance under the terms of the Ontario Student Assistance Program or of the Canada Student Loans Plan. Students in part-time programs are eligible to apply for assistance. Further information and application forms are available at the Student Services Office of the College, 500 MacPherson Avenue

Note: These services are not usually available for students in part-time continuing education courses. However interested students should contact the appropriate service during regular office hours for assistance or special arrangements.

Information and Registration Instructions

Application/Registration Application may be made by mailing the form included in this calendar accompanied by the total course fees to the appropriate Campus Admissions Office.

Because many courses described herein are very popular and because enrolment is often limited, application should be made as much in advance of the listed start date as possible to ensure a place Mail-in forms should be received at the College at least two weeks prior to the start date. In-person registration is strongly recommended. Applications are treated on a first-come-first-served basis

Samesters/Start Dates
Part-time course offerings are grouped into three main periods or semesters during the academic year although not all courses start according to any specific schedule. Consult course descriptions for actual start dates.
Fall semester begins
September 15
Winter semester begins
January 19.
Spring/Summer semester begins
April 27.

Tuition Fees/Incoma Tax Receipts
Tuition fees are listed for each course as "Fee" The pink receipted copy of the registration form bearing a cash register imprint is your official receipt for income tax purposes and admit-to-lectures card. Please retain it carefully since no duplicates will be issued under any circumstances

Mail-in applications will be processed only if the total fee is included. Receipts will either be returned by mail or handed-out in class. Your cancelled cheque is your temporary receipt.

No notification of acceptance of mail-in registrations will be made.

Registration Fae A registration fee of $5 is included in the tuition fee and is **non-refundable** except in the case of course cancellation by the College

Metarials Faa Some courses have an additional charge levied for materials used in the course or retained by the student. This fee is not eligible for taxation deduction purposes and must be paid with the tuition fee at application or registration.

Method of Peyment Fees may be paid by cash, cheque or money order payable to. GEORGE BROWN COLLEGE. Cheques should not be post-dated.

Candidates must pay their own fees in advance of the start date of classes even though they may be reimbursed by a third party. The College will not bill outside agencies for individual part-time courses. Registration is not complete until all fees are paid.

Senior Citizens Candidates who have attained the age of 65 on or before the start date of the course will pay only the $5 registration fee and any applicable materials fees for any course in this calendar. They must register as usual by mail or in person.

Refunds Refunds may be requested in person or in writing at the Campus Admissions Office **before the third scheduled meeting of the class.**

No request for refund will be entertained without surrender of the official pink receipt.

The $5 registration fee is non-refundable except where the course is cancelled by the College.

A charge of $5 per scheduled session of the course to a maximum of $10 will be deducted depending on the date the refund was requested and irrespective of whether or not the candidate actually attended classes.

Refund cheques will be mailed within two weeks. Cash refunds or credits are not allowed.

In some courses with especially high materials fees a prorated deduction based on estimated consumption during the sessions attended will be subtracted from any refund of fees.

Course Cancellations/Changes The description of course offerings contained in this calendar is a statement of intention on the part of the College which will be carried out as closely as circumstances permit. However, the college reserves the right to cancel or change any of the particulars of course offerings without notice.

A full refund will be made if a course section is cancelled and every effort will be made to contact registered students in advance.

Class Cancellations/College Closings In the event of inclement weather, emergencies or other circumstances beyond the College's control that force cancellation of classes, announcements will be broadcast on radio stations C.B.L. (740) and C.F.R.B. (1010).

Minimum Enrolments The College reserves the right to cancel any class for which attendance has dropped below the required minimum and to suspend or combine during the session any classes or sections in which attendance falls below the minimum.

Changes of Course/Transfers Request for course changes or transfers will be accepted only if made prior to the third scheduled class, accompanied by the official receipt and if there is space available in the desired class.

Transfers will be considered a withdrawal from the first course and registration in the second. Thus the $5 registration fee from the first course is forfeit and full fees will be charged for the second.

Prerequisites Candidates are advised that many of the courses listed require considerable related experience or proof of successful completion of previous courses. Prerequisites stated are firm and are the minimum requirement.

Part-Time Studies During the Day Under certain conditions, enrolment in regular day classes of some subjects is possible although the regular continuing education program is essentially confined to the evening. For further information call 967-1212 before 3 p.m. and ask for the Chairman's Office for the relevant subject area. Inquiries may also be made at the Campus Admissions Office.

Certificetion Some courses may be combined with others in this calendar to earn successful candidates a variety of certificates issued by the College. These are clearly outlined in the preamble of the relevant section.

In addition, some courses lead to certification of accreditation by external professional or licensing bodies. Applicants should direct any questions to the Admissions Office at the time of registration.

Courses in the Community Services division may be accumulated for credit towards both certificate and post-secondary diploma programs. Students in these courses will pay no higher tuition fees than if they completed the same program full-time.

Academic Credit/Grading Wallet-sized grade report cards are mailed to all registrants within approximately one month of the scheduled course termination date.

Actual letter grades are issued for many courses while others are marked on a PASS/FAIL system or elicit a COMPLETED/INCOMPLETE status indicator on the grade report.

Text Books and Supplies Text books and supplies for all part-time courses may be purchased at the individual campus bookstores. These stores are open in the evening for approximately two weeks at the beginning of each semester. For information ask your instructor or call the College at 967-1212 and ask for your campus bookstore.

Financial Aid Students who are enrolled in part-time courses which may be credited toward a Ministry approved diploma or certificate program may be eligible for financial assistance. For complete details please consult the Financial Aid Office at 967-1212, extension 235.

Prerequisite: Grade 7 mathematics or equivalent.
Course Content: Whole numbers, fractions, decimals, percent, ratio and proportion, introduction to metric system and use of calculators. Individualized instruction.

Start date:
January 29, 1981

Mathematics Upgrading 9 MATH 907

Thursday, 1900-2200 hrs.
Casa Loma Campus
50 hours
Fee: $35.00

Prerequisite: Math 906 or equivalent
Course Content: Brief review of fractions, decimals, and percent. Powers, square roots, metric system, mensuration and introductory algebra. Individualized instruction.

Start date:
January 29, 1981

Mathematics Upgrading 10 MATH 908

Thursday, 1900-2200 hrs.
Casa Loma Campus
50 hours
Fee: $35.00

Prerequisite: Math 907 or equivalent.
Course Content: Properties of triangles, circles, theorem of Pythagoras, volume, weight and capacity, multiplication and division of monomials and binomials, linear equations, simultaneous equations introductory trigonometry. Individualized instruction.

Start date:
January 29, 1981

Mathematics Upgrading 11 MATH 909

Tuesday and Thursday
1900-2200 hrs. (Fall and Winter)

Casa Loma Campus
60 hours
Fee: $35.00

Prerequisite: Grade 10 Mathematics or MATH 908
Course Content: Brief review of grades 9 and 10 algebra, exponents, scientific notation and formulae; logarithms; mensuration, ratio and proportion, real number system and quadratic surds, plane trigonometry

Start date:
January 27, 1981

Mathematics Upgrading 12 MATH 910

Tuesday and Thursday
1900-2200 hrs. (Fall and Wintar)
1730-2030 hrs. (Summer)
Casa Loma Campus
60 hours
Fee: $35.00

Prerequisite: Grade 11 Mathematics or MATH 909
Course Content: Brief review of grade 11 algebra; open sentences, equations, and inequalities, relations, functions, and their graphs; quadratic equations; sequences and series; numerical trigonometry.

Start date:
January 27, 1981

Biology BIO 900

Monday and Wednesday
1900-2200 hrs. (Fall and Wintar)
1730-2030 hrs. (Summar)
Casa Loma Campus
75 hours
Fee: $35.00

Prerequisite: Grade 10 Science or SCI 908
Course Content: Human anatomy and physiology at the grade 11 or 12 level; structure and function of the various body systems with laboratory work.

Start date:
January 26, 1981

ACADEMIC

Chamistry CHEM 900

Fee: $35.00

Prerequisite: Grade 10 Science or SCI 908.
Course Content: Grade 11 or 12 level; introductory college chemistry with laboratory work.

Start date:
January 27, 1981

Advanced Technical Evening Classes (A.T.E.C.)

Mathematics I MATH 100X

Tuesday, 1900-2200 hrs.
Casa Loma Campus
60 hours
Fee: $75.00

Fundamental concepts and operations of arithmetic and algebra, electronic calculator, functions and graphs, trigonometric functions, simple linear equations, algebraic factoring and fractions, quadratic equations, graphs of quadratics, graphs of the trig. functions, oblique triangles, exponents and radicals.

Start date:
January 27, 1981

Mathematics II MATH 200X

Tuesday, 1900-2200 hrs.
Casa Loma Campus
60 hours
Fee: $75.00

Prerequisite: MATH 100 or equivalent.
Course Content: Algebraic notations binomial theorem, Trigonometry. Analytic Geometry: the straight line, loci, conics, second degree equations. Differential Calculus: limits, derivatives of product, quotient and power functions, rate of change, maxima and minima. Integration: indefinite and definite integrals, areas under the curve, volumes of revolution.

Start date:
January 27, 1981

Mechanics I MECH 100X

Monday, 1900-2200 hrs.
Casa Loma Campus
60 hours
Fee: $75.00

Prerequisite: MATH 100 or equivalent (prior to or concurrent with Mechanics 1).
Course Content: Basic principles of statics: coplanar, parallel and concurrent force systems, friction, centroids and centres of gravity, second moments of areas. Dynamics: basic principles, rectilinear motion, work, energy and power, impulse, momentum, impact.

Start date:
January 26, 1981

Micro Computar Introductory Programming PRGM 925

Wadnesday, 1900-2200 hrs.
Casa Loma Campus
30 hours
Fee: $50.00

Development of micro computers, types of computers, costs and availability. Computer terminology, interaction between individual and machine loading and running a taped program, simple commands in BASIC. Demonstration programs, entertainment programs, competitive programs. Writing For Fun and Profit ENG 919

Thursday, 1900-2200 hrs.
St. James Campus
35 hours
Fee: $60.00

This course combines mini-lectures with an informal writers' workshop. It covers all phases in creating and selling non-fiction (articles, interviews, reviews, editorials, etc.) fiction (stories, plays, poems). If you have a strong urge to break into print and you feel you have the necessary talent, this course will gratify that urge and groom that talent.
This course does not guarantee a professional career; it will help you, however, in avoiding the prolonged trial and error in working on your own. It will take you, step by step, from recognizing the marketable "story idea" to submitting a professional-looking manuscript to the most likely buyer. This writers' workshop will be conducted by a veteran writer-editor.

Mini and Microcomputers
in Business **EDP 800**

Monday, 1800-2100 hrs.
St. James Campus
42 hours
Fee: $65.00

Mini and Microcomputers are employed in a myriad of activities ranging from typical applications (such as printing mailing labels, creating personalized letters on a word processing system, and handling General Ledger, Accounts Receivable, Accounts Payable, Order Entry, and Inventory Control tasks) to sophisticated applications for production scheduling, sales analysis, forecasting and business simulations. In order to compete in today's complex business environment, management of small firms is relying increasingly on computer systems that provide accurate, timely and comprehenseve information.
The course is designed for senior and middle management of small businesses. Participants may be presidents, controllers, or managers who are directly involved in using computer processed information in their decision-making roles within their organization.
This course will explore the characteristics of mini and microcomputers in a dynamic industry, changes occur frequently and we will focus attention on the emerging trends that will affect the development of computer systems. The course material introduces both hardware and software features and we will examine current state-of-the-art systems from a number of suppliers. The task of selecting appropriate applications for computerization and selecting hardware and software to provide the best combination of price and performance is an extremely complex one. This course will examine guidelines to assist the participant in this evaluation.

Courses are offered Tuesday and Thursday between 1500-2100 hours.

The following courses must be completed in order to obtain the Diploma:

ACT900 — Growth and Development
ACT901 — Community Resources
ACT902 — Working with the Handicapped
ACT903 — Ambulation and Exercise
ACT904 — Activity Planning
ACT905 — Use of Crafts and Hobbies I
ACT906 — Normalization and Remotivation
ACT907 — Use of Crafts and Hobbies II
ACT90B — Assessment Skills
ACT909 — Special Purpose Groups
ENG922 — Communications I
ENG923 — Communications II
FLDP900 — Field Practice
FLDP901 — Field Practice
FLDP902 — Field Practice
FLDW900 — Field Work Seminar
FLDW901 — Field Work Seminar
FLDW902 — Field Work Seminar
GERI900 — Geriatric Impairments
PDE900 — Program Development and Evaluation
PSY905 — Psycho-Geriatrics
BUS90B — Organization and Management Skills
CS900 — Coordination Skills
PSY904 — Psycho-Social Needs

Activity Planning ACT 904

Thursday, 1700-1900 hrs.
Nightingale Campus
30 hours
Fee: $50.00

The goals, resources, assessment and implementation skills required in the conducting of effective activities will be studied in the context of appropriate activities. Topics will include: goal setting for individual clients, assessment of both human (residents, staff, volunteers, families and other agencies) and material (funds, equipment, improvisations of equipment and materials) resources, audio-visual skills and program assessment. Programs that will be examined will include such activities as outings, games, parties, dances, bazaars, dinners, exercise, and recreation. Methods for promoting community integration will be considered.

Start date:
January 15, 1981

Use of Crafts and Hobbies I ACT 905

Thursday, 1500-1700 hrs.
Nightingale Campus
30 hours
Fee: $50.00

Students will practice a variety of crafts and hobby skills such as woodwork, metalwork, sewing, needle work, painting, ceramics, pottery and jewellery making in a workshop situation.

Start date:
January 15, 1981

Normalization and Ramotivation ACT 906

Thursday, 1900-2100 hrs.
Nightingale Campus
30 hours
Fee: $50.00

The theory of normalization and remotivation will provide a background for the development of the related practical skills. Start date:
January 15, 1981

Communications II ENG 923

Tuesday, 1500-1700 hrs.
Nightingale Campus
30 hours
Fee: $50.00

Students will learn and practice those communication skills that are essential in order to work effectively with groups. One to one communication techniques, group process and empathy training will form the course content.

Start date:
January 13, 1981

Geriatric Impairments GERI 900

Tuesday, 1700-1900 hrs.
Nightingale Campus
30 hours
Fee: $50.00

In this course students will learn about those physical disorders commonly suffered by the handicapped and the elderly and their effect on the individual's ability to function. Conditions that will be studied are: cardiovascular disease, diabetes, Parkinson's Disease, Cerebral Palsy, Organic Brain Syndrome, Cancer, respiratory disorders, vision, hearing and speech losses, fractures, arthritis and multiple sclerosis.

Start date:
January 13, 1981

Psycho-Geriatrics PSY 905

Tuesday, 1900-2100 hrs.
Nightingale Campus
30 hours
Fee: $50.00

In this course students will learn about behaviour disturbances and dependencies with emphasis on those most commonly found amongst the elderly. Topics to be covered will include chronic mental health problems with emphasis being placed on behaviours such as depression, anxiety, alcoholism and withdrawal. Aspects of dealing with death and dying will also be included.

Start date:
January 13, 1981

Foster Parent Cartificate Program — Part-Time

This is a part-time certificate program comprising academic courses and evaluation of fostering competencies.

The program is designed to provide the basic knowledge and skills to enable foster parents to understand and cope with the behaviours of children in their care E.G. withdrawal, acting out, aggression, depression, stealing, bedwetting and truancy.

The emphasis will be placed on the application of child management principles. The courses are not designed to deal with individual problems. Specific problems relating to individual children should be referred to the employing agency by the foster parent.

The Foster Parent Program consists of four courses, two of which can be taken each year and an evaluation of fostering skills required in the second year.

Applications and information regarding this program may be obtained from Linda Silver, Division of Community Services, George Brown College, Box 1015, Station "B", Toronto, M5T 2T9. Telephone 967-1212, local 655.

Note: There is a late registration fee of $10.00 per course for all registrations received after August 21. It is recommended that applications be received by the Community Services Division before July 31. This program is only open to those currently employed as foster parents in association with a recognized fostering agency.

COMMUNITY SERVICES

The following courses must be completed in order to obtain the certificate.

FPP900 — Human Growth and Development
FPP901 — Child Management I
FPP902 — Child Management II
FPP903 — The Foster Parent and the Community
FPP904 — Evaluation of Fostering Skills

Child Managemant I FPP 901

Tuesday, 2000-2200 hrs.
Nightingale Campus
20 hours
Fee: $25.00

This course will explore specific management areas such as separation, setting limits, routines and consistency as well as considering difficult behaviours e.g. lying, stealing, bed-wetting, aggression and withdrawal.

The material for the course will be drawn largely from the experience of the participating foster patents.

Start date:
January 20, 1981

Child Management II FPP 902

Thursday, 2000-2200 hrs.
Nightingale Campus
20 hours
Fee: $25.00

Prerequisite: Child Management I or equivalent.

This course will continue the study of behaviour and child management begun in Child Management I. The objectives are similar. The expectation is that students will possess improved insights and be able to proceed by the case study method. Case studies and other material for this course will be prepared in cooperation with fostering agencies.

Start date:
January 22, 1981

Evaluation of Fostering Skills FPP 904

Fee: $15.00

An evaluation of each student's fostering skills will be required in the second year of the program. Evaluation forms will be provided by the program coordinator.

Health Care Aide Program

This program provides a basic training for those who wish to work with patients in long-term or chronic care facilities. Under the supervision of a registered nurse the health care aide provides personal care for the comfort and safety of residents and is involved in the process of creating a climate to promote the optimal physical, social and emotional well-being of each resident.

The Health Care Aide Program was developed by and is recognized by the Ministry of Health, Ministry of Education and the Ministry of Community and Social Services.

Admission Requirements:

Grade 10 — mature persons 19 years of age and over with less than Grade 10 will be considered individually.
Facility with English
A personal interview.
Length of Program — 480 hours — offered part-time in both day and evening courses.

Educational Assistant Diploma Program

This series of courses is designed only for Educational Assistants who are currently employed by a Board of Education. The basic objective is to provide Educational Assistants with the fundamental, practical skills and theoretical concepts to assist them in their classroom work with children.

Applications and information may be obtained from the Division of Community Services, George Brown College, Box 1015, Station "B", Toronto, M5T 2T9, Telephone 967-1212, local 655 or from the Admissions Office, Kensington Campus, George Brown College, Box 1015, Station "B", Toronto, M5T 2T9.

The following courses must be successfully completed in order to obtain the certificate. Courses are offered on Tuesdays between 1700-2030 hours.

EA900 — Child Development
EA901 — The School and the Community
EA902 — Language and Listening Skills
EA903 — Program Skills
EA904 — Classroom Practice

COMMUNITY SERVICES

Lenguage end Listening Skills **EA 902**

Tuesday, 1700-1830 hrs.
Nightingale Campus
22-1/2 hours
Fee: $27.50

This course will examine the basic stages of language development and emphasis the acquisition of skills which promote language and listening ability for both normal and exceptional children.

Start data:
Jenuary 13, 1981

Program Skills **EA 903**

Tuesday, 1900-2030 hrs.
Nightingale Campus
22-1/2 hours
Fee: $27.50

Communication Skills — Effective Leadership **ES 915**

Monday, 1900-2130 hrs.
Nightingala Campus
25 hours
Faa: $40.00

Communicating with people who work for you requires a blend of tact and honesty which leaves many supervisors and leaders in a conflicting position. How can I offer constructive criticism? How can I make myself available and really listen to the needs and criticisms which my staff present to me recognizing the effect of my authority and channelling it to encourage individual potential? This requires unique communication skills and an understanding of your own leadership style.

As well, supervising a group of intelligent, energetic individuals can be threatening at times, when you question your own ability to control and still appear to be human to the group. Are there creative ways I haven't thought of to utilize the resources of my staff group, getting them more involved and motivated? How can I help build a more cohesive work team without losing authority? Being an effective leader requires understanding patterns of communication in group and knowing how to tap group energy

Start Date:
February 2, 1981

Physicel Intarvantion Techniqas **FIT 805**

Monday (Fall only) 1900-2030 hrs.
Friday (Winter only) 1500-1630 hrs.
Nightingale Cempus
15 hours
Faa: $25.00

To maintain safety for both client and worker if physical intervention becomes necessary. This course will teach students the following skills: Falling safely, bringing a client to the ground safely, "come-along holds," protecting oneself from kicks and punches, releases from head locks, chokes (rear and front) and wrist grabs.

Monday, 1900-2200 hrs.
Case Loma Campus
60 hours
Fee: $125.00

Prerequisite: MACH 902 or previous part programming experience.
Course Content: History; computer assist N/C language, APT and AD-APT systems, hardware, software, AD-APT system structure; AD-APT, co-ordinator system, part geometry; tools-to-geometry, relationships, part surface, drive surface, check surface, extended capabilities; AD-APT statements, vocabulary, symbols and punctuation; geometric words, logical structure in describing, part geometry; tool motion, tool description statements, motion statements, motion termination.
Note: This is a practical hands-on N/C computer course which will run when enrollment is sufficient.

Start deta:
March 2, 1981

Injection Moulding PL 905

Thursday, 1900-2200 hrs.
Case Loma Campus
30 hours
Fee: $75.00
Meteriels: $20.00

Course Content: Properties and characteristics of thermoplastic materials; polieolefins, polystyrenes, vinyls, nylon acrylics. Use of regrind and virgin materials. Colour mixing, shrinkage factors. Pre-drying thermoplastics and methods. Process operating principles of plunger injection and reciprocating screw injection machines, machine components and nomenclature; instrumentation and controls; hydraulic systems; mould temperature control. Practical: operation of machines; mould set-up; setting temperatures; cycles and controls, mould temperature control, safety features and precautions; troubleshooting. Design: mould components and nomenclatures; good and poor design; types of moulds, application and design of various types and sizes of runners, sprues and gates, draft angles; tolerances; mould maintenance.

Start date:
February 5, 1981

Welding I WELD 900

Monday (Fall term)
Monday and Wednesday
(Spring term)
1900-2200 hrs.
Case Loma Campus
60 hours
Fee: $80.00
Meteriels: $25.00

Prerequisite: Ability to understand English well enough to absorb instruction.
Course Content: Basic principles of oxyacetylene and electric arc welding; safety precautions; types and uses of various oxyacetylene flames, types and uses of various rods and electrodes, braze welding; use of fluxes, arc welding machine controls; practice welding in the flat position using oxyacetylene and electric arc equipment.

Start date:
March 23, 1981

Welding II WELD 901

Tuesday (Fall term)
Monday and Wednesday
(Spring term)
1900-2200 hrs.
Case Loma Campus
60 hours
Fee: $80.00
Meteriels: $25.00

Prerequisite: WELD 900 or equivalent experience.
Course Content: Theory of alternating and direct current; polarity; shielded arc electrodes; classification and selection of electrodes; edge preparations, joint design; weld faults; manufacture and storage of oxygen and acetylene, basic welding metallurgy, practice welding of fillet, lap, and butt joints in the flat, horizontal, and vertical positions using oxyacetylene equipment; practice welding of fillet and lap joints in the flat, horizontal and vertical positions using electric arc equipment.

Start date:
March 23, 1981

Welding III WELD 907

Thursday (Fall term)
Monday and Wednesday
(Spring term)
1900-2200 hrs.
Case Loma Campus
60 hours
Fee: $100.00
Meteriels: $35.00

Prerequisite: WELD 900 and WELD 901, or equivalent experience.
Course Content: Selection of electrodes; function of cellulose and low hydrogen coatings; electrode operating characteristics; control of weld faults; set-up and adjustment of machine controls; techniques required for "all position" welding; control of distortion; testing of welds; practice welding of fillet and lap joints in all positions and an introduction to groove joints in all positions. Cellulose and low hydrogen electrodes will be used.

Start date:
March 23, 1981

Welding Pre-Certification (M.C.C.R.) WELD 903

Monday (Fall term)
Tuesday and Thursday
(Spring term)
1900-2200 hrs.
Cesa Lome Campus
60 hours
Fee: $100.00
Materials: $45.00

Prerequisite WELD 900, WELD 901 and WELD 907 or equivalent experience. A pre-entry interview is required.
Course Content: Safety precautions; function of electrode coatings; electrode selection and application; edge preparation, weld faults, welding techniques, setting up of equipment, testing of welds and operators' codes; practice welding of groove joints in all positions, using cellulose and low hydrogen electrodes; root and face guided bend test specimens will be taken from buff welds in all positions.
Note: At the termination of this course, a practical test for M.C.C.R. certification may be arranged. An additional nominal fee is involved.

Start date:
March 24, 1981

Welding — Pipe — Uphill (GTAW/SMAW) WELD 906

Monday and Wednesday
1900-2200 hrs.
Cese Lome Campus
60 hours
Fee: $115.00
Materials: $110.00

Prerequisite: (1) WELD 900, WELD 901, WELD 907, WELD 903 or (2) Boiler Inspection Branch (M.C.C.R.) certification for all position welding of plate and proficiency in the use of low hydrogen electrodes. A pre-entry interview is required.
Course Content: Pipe specification, preparation of pipe, recommended fits and tolerances; electrode classification and selection; testing of welds and operators; codes; setting up and adjusting GTA equipment; tungsten electrodes; shielding gases; practice welding of carbon steel pipe using the GTAW process for the root pass and low hydrogen electrodes for succeeding passes.
Note: At the termination of this course a practical test for M.C.C.R. certification may be arranged. An additional nominal fee is involved.

Start deta:
March 23, 1981

Welding Ornamental Metalwork WELD 909

Tuesday (Fall term)
Tuesday and Thursday
(Spring term)
1900-2200 hrs.
Cese Lome Campus
60 hours
Fee: $100.00
Materials: $15.00

Course Content: Fundamentals of welding, safety precautions, selection of materials; fundamentals of design, use of hand tools, methods of twisting, forming and fastening metals, forming of scrolls; surface decoration, surface finishing; use of metal working equipment; practice shop work consisting of the fabrication of various types of ornamental metal projects.

Start date:
March 24, 1981

ELECTRO-MECHANICAL

Welding Aluminum and Steinless Steel (GTAW/GMAW) WELD 910

Tuesdey and Thursdey
1900-2200 hrs.
Cese Lome Campus
60 hours
Fee: $115.00
Meteriels: $60.00

Prerequisite: WELD 900 and WELD 901 or a minimum of six months continuous experience in oxy-acetylene or arc welding.
Course Content: Setting up and adjusting G.T.A.W. and G.M.A.W. equipment; types, sizes and uses of tungsten electrodes; types and sizes of filler wires, use of shielding gases; flow-meters, practice welding of light gauge aluminum and stainless steel sheet using the G.T.A.W. process and welding of aluminum plate using the G.M.A.W. process.
Note: This course does not include the welding of pipe.

Start date:
March 24, 1981

Non-destructive Testing

The following Non-destructive Testing courses will be offered in co-operation with the Canadian Society for Non-destructive testing

Eddy Current Testing I TEST 901

Tuesdey, 1900-2200 hrs.
Cese Lome Campus
40 hours
Fee: $135.00

A basic course in eddy current testing will be directed to technicians who are using the equipment, to supervisors and others who require a basic understanding of the method, and to those who wish to broaden their knowledge in non-destructive testing.
Course Content: Introduction and testing philosophy, test principles, applications and capabilities, equipment, testing techniques, calibration.
Textbook: General Dynamics Classroom Training Handbook CT-6-5, Eddy Current Testing

Start date:
February 17, 1981

Ultrasonic Testing II TEST 902

Wednesdey, 1900-2200 hrs.
Cese Lome Campus
40 hours

Liquid Penetrant & Magnetic Particle (LPI/MPI) TEST 907

Monday, 1900-2200 hrs.
Cese Lome Campus
36 hours
Fee: $125.00

This course is designed to cover the basic fundamentals involved in the selection and application of liquid penetrant and magnetic particle testing equipment.
Liquid Penetrant — N.D.T. and liquid penetrant testing; principles and methods of liquid penetrant testing; selection of penetrant test method and equipment; evaluation of liquid penetrant indication.
Magnetic particle inspection — principles of magnets and magnetic fields; magnetization by means of electric currents; types of equipment and inspection materials, selection of the proper type of magnetization; principles of demagnetization; types of discontinuities located by magnetic particle testing; indications and interpretation.
Textbook: General dynamics manuals CT-6-3 "Liquid Penetrant Testing", and CT-6-3 "Magnetic Particles Testing".

Electricel Construction and Maintenance I EL 907

Mondey and Wednesdey, 1830-2130 hrs.
Case Loma Campus
60 hours
Fee: $75.00
Meteriels: $20.00

Prerequisite: Grade 10 or the equivalent.
Course Content: Ohm's Law; series circuits, combination circuits; two-wire distribution; line loss, power efficiency; wire calculations; batteries, magnetism, electromagnetism, induction, three-wire distribution; Hydro Electric Power Commission Regulations; shop projects.

Start date:
February 2, 1981

ELECTRO-MECHANICAL

Electrical Construction and Maintananca II **EL 908**

Tuesday and Thursday, 1830-2130 hrs.
Casa Loma Campus
60 hours
Fee: $75.00
Materials: $20.00

Prerequisite: EL 907 or the equivalent
Course Content: Electromagnetism; induction; DC generators; generator set-up and operation, DC motor, motor operation and controls; Hydro-Electric Power Commission Regulations; shop projects.

Start date:
February 3, 1981

Electrical Construction and Maintananca III **EL 909**

Tuesday and Thursday, 1830-2130 hrs.
Casa Loma Campus
60 hours
Fee: $75.00
Materials: $20.00

Prerequisite: EL 908 or the equivalent.
Course Content: AC fundamentals, vectors, single-phase transformers, single-phase motors, three-phase motors, three-phase transformers, auto-transformers, Hydro-Electric Power Commission Regulations, shop projects.

Start date:
February 3, 1981

Electrical Pre Exam **EL 950**

Monday and Wednesday 1830-2130 hrs.
Casa Loma Campus
Fee: $75.00

Prerequisite: Designed for journeymen who are seeking interprovincial standards and those journeymen referred by the Ministry on Provisional Certificates.
Theory, code and equipment over the entire apprenticeship training area.

Start date:
February 2, 1981

Electrical Auxilliary Systam **EL 951**

Tuesday and Thursday 1830-2130 hrs.
Casa Loma Campus
Fee: $85.00
Supplies: $35.00

Prerequisite: Designed for those Provisional journeymen who are referred from the Ministry.
Theory, operation and control of D.C. and A.C. equipment with respect to motors, transformers, fire alarms, and heating systems.

Start date:
February 3, 1981

Computer Systams **ELTC 906A**

Thursday, 1900-2200 hrs.
St. James Campus
45 hours
Fee: $65.00

Prerequisite: ELTC 906 or equivalent.
Course Content: Fundamental programming concepts, machine language, computer organization, order code; programming: assembler, editor, debugging; computer peripherals, core, drum, disc, magnetic tape, cards, paper tape, printer, data transfer; interfacing; i/o bus, peripheral controls, laboratory work, programs in assembler language, construction in interface units.

Start date:
February 5, 1981

Microprocessors (Part I) **ELTC 917**

Wednesday, 1900-2200 hrs.
St. James Campus
45 hours
Fee: $65.00

Prerequisites: ELTC 906 or equivalent. A basic knowledge of minicomputers and machine language programming would be an asset.
Course Content: Construction of a microcomputer by each student, discussion of microcomputer design, fundamental machine language programming techniques, and basic interfacing procedures will be covered in a lecture/lab setting using the 6800 microprocessor and related support logic.
The constructed microcomputer will be available for the students personal use with the payment of a laboratory fee of $175 of which $150 is refundable with the return of the microcomputer in working condition.

Start date:
February 4, 1981

Microprocessors (Part II) **ELTC 918**

Thursday, 1900-2200 hrs.
St. James Campus
45 hours
Fee: $65.00

Prerequisites: ELTC 917 or equivalent.
Course Content: Students will develop programs for the 6800 or 8080 microprocessors using the cross-assemblers on the College computer time-sharing facility. Interfaces for teleprinters, keyboard displays, video terminals, cassette tape, and floppy disc, will be discussed and used with the microcomputers built in ELTC 917 in a lecture/lab setting. Popular microprocessors and their support logic will be compared in relation to application.

Start date:
February 5, 1981

Microprocessors in Data Acquisition & Process Control **ELTC 922**

Thursday, 1900-2200 hrs.
St. James Campus
30 hours
Fee: $75.00

Prerequisites: Be familiar with microprocessor architecture, hardware interfacing and machine level programing
Course Content: Concept of analog/digital conversion & data acquisition; concept of process control: on/off, proportional, proportional plus reset and rate; advantages of microprocessor control; programing for data acquisition & process control; state of the art of microcomputer control.
If the student does not possess a microcomputer kit, he will have to borrow one from the department by depositing $150.00. A refund of $125.00 will be made if the unit is returned in working condition.

Start date:
January 29, 1981

ELECTRO-MECHANICAL

Cable Television Practice (Besic) ELTC 913A

Monday, 1900-2200 hrs.
St. James Campus
60 hours
Fee: $85.00

Prerequisite: Recommendation of the employer.
Introduction to T.V. sync and composite signals; b&w and colour, modulation channel allocation, antennas; cable distribution; antenna site location, system layout, amplifiers, splitter, tap offs, drops, coax cable characteristics, DB, VSWR, losses and reflection; tube and transistorized, wideband, single channel, main line, distribution and extender; line construction; clearance, safety, handling splices, tap offs, installation of amplifiers and passive devices, customer relations; fault finding and interference.

Start date:
January 5, 1981

Cable Television Practice (Advanced) ELTC 913B

Wednesday, 1900-2200 hrs.
St. James Campus
60 hours
Fee: $85.00

Prerequisite: Recommendation of employer.
CATV system design requirements and constraints, system powering, noise and cross intermodulation, antennas and headends, bi-directional catv systems, computer applications in CATV, radiation problems and testing, micro-wave in CATV, fibre optics, system monitoring, UHF distribution and local origination programming.

Start data:
January 7, 1981

Industrial Hearing Conservation IHS 900

Tuesday, 1900-2200 hrs.
St. James Campus
30 hours
Fee: $175.00

Prerequisites: The course is intended for safety personnel in industry and occupational health nurses and those who supervise health & safety programs.
Course Content: Lectures and practical laboratory work will provide students with a knowledge of the concepts of hearing conservation, an understanding of the physical measurement of sound, and the ability to undertake audiometric screening. The ethical and legal considerations surrounding audiometry will be covered, as well as record-keeping techniques.
Special lecturers from industry and government will give presentations.

There is much concern about Canada's health care system: not only about the high costs and side effects of sophisticated technology, but also about the need to shift responsibility for health back to the individual, and to prevent illness produced by our style of life.
We hear about many alternative approaches to health care. Miracle fasts, faith healing and biofeedback are just a few. Newspapers, magazines and general conversations are cited in unusual examples of cures "that should not have happened." How does one make sense of these? Are there alternatives to the present approaches.

Toronto's Past and Present: History Through Our Buildings CE 853

Thursday, 1930-2130 hrs.
St. James Campus
17 hours
Fee: $30.00

Course Content: Today's city dwellers rush past buildings and streetscapes, little recognizing their subtle clues to our past. Learn how and what to look for in illustrated lectures which examine buildings from Toronto's beginnings to mid-20th century. By exploring styles and materials and the relationships between individuals and buildings, we discover how people lived and reflected their class and times. After looking at the development of various types of buildings, participants will practice their new sleuthing skills in a walk through the east end of old York.
Margaret Baily is Research Historian for the Preservation Section of the Toronto Historical Board. She has shared her love of history and architecture with many groups including those at the Toronto Public Library and University of Toronto. Her informal and humorous approach invariably delights as it brings the bare bones of history to life.
